VERSAILLES

Heavily influenced by the gardens of Versailles, this planter is adorned with ball finials and rings, which gives it a very traditional look. The planters will arrive in a weathered zinc finish, but over time they will lighten due to the natural oxidisation process. This stunning planter is indeed a statement and is certainly deep enough to plant a small tree.

Bay trees (*Laurus Nobilis*) or Portuguese Laurel (*Prunus Lusitanica*) look stunning in the Versailles Planters. The height of the planter provides the Tree roots with room to grow, ensuring the tree can live healthily for many years to come.

ARRAS FURNITURE

Finally after many years of research and development we are proud to introduce our own range of beautiful garden furniture. The design is a reproduction of the traditional garden furniture made in the

Town of Arras in France during the 17th and 18th Century.

Following the tradition with the 'Hoof' feet the chairs and tables are made with the same curved iron for comfort and longevity. All the furniture in this range is galvanised and then finished with our unique patina that will age over time. The Arras range is made to order, so please allow approximately eight weeks for delivery.
